

Student Choices when PI Leaves UW-Madison

The student must consider where the following will apply, at UW or UX:

- Appointment (includes tuition remission, stipend, & option for health benefits)
- Tuition payment
- Salary
- Health benefits

Appointment as RA (grant) or TA gives the graduate student resident status and option for health benefits. If the graduate student does not have an appointment, then the student would pay international or non-resident tuition, if this applies.

Requirements for PhD from UW:

- 32 credits earned while at UW (residence credits)
- Continuous enrollment at UW with dissertator status
- Enrollment at UW in term that PhD is awarded
