

CHEMISTRY PRIVATE TUTORS FOR HIRE - Spring 2024

The Department of Chemistry can offer no assurances regarding the quality of any private tutor

- Private tutors on this list are chemistry graduate students, undergrad chemistry majors[†], teaching specialists, or other professionals associated with the Department of Chemistry.
- Fees are charged by the tutor. **Some tutors may offer group rates or reduced rates for students with financial need (Indicated with *.)**
- When contacting a potential tutor, students should clearly identify themselves as a UW-Madison student (sending from UW email is best), include their full name and the course for which they are seeking tutoring.
- Current TAs, teaching specialists (TSs), undergraduate assistants (UAs), lab assistants (LAs), and other staff are not permitted to serve as a paid tutor for a student in the same course that they are working with, even if the student is enrolled in a different lecture section of the course.
- Beware of unsolicited offers for tutoring services from third parties external to UW-Madison, especially those solicited via social media. While some of these vendors might provide useful services, others are costly scams and some have falsely claimed association with UW-Madison courses.

General Chemistry	Email	Course	Rate	Organic Chemistry	Email	Course	Rate
Palmer, Emily*	eepalmer@wisc.edu	103, 108, 116	\$10	Plouff, Kylie* [†]	kplouff@wisc.edu	343, 344, 345	\$18
Kline, Annika* [†]	akline5@wisc.edu	103, 104, 108	\$18	Abtahi, Bahar* [†]	babtahi@wisc.edu	343, 344, 345	\$20

Chemistry Tutoring and Learning Support Resources – Spring 2024

Many UW-Madison learning support resources are available free to UW-Madison students. This first page lists ones that offer free tutoring or support specifically for chemistry courses. **Only resources marked with an asterisk (*) are affiliated with the Department of Chemistry.** The second page contains a list of private chemistry tutors available for hire.

TA/TS Office Hours and Help Desks*

The Teaching Assistants (TAs) and Teaching Specialists (TSs) associated with your course are available to help you! Depending on the course, TAs/TSs will have either office hours or staff a Help Desk. Details are available from your TA or course instructor on where and when Help Desk/office hours are located.

Instructor's Office Hours*

Your faculty or staff course instructor has office hours and students are strongly encouraged to utilize them. You will not only help yourself by getting your questions answered, but you will also help the instructor learn what concepts students are confused about! Some instructors also use Piazza to respond to student questions.

Alpha Chi Sigma (AXE)

[Alpha Chi Sigma \(AXE\)](#) is a co-ed professional chemistry fraternity that offers free peer tutoring. Please check alphachisigmauw.com/tutoring for updates on Spring 2024 tutoring times and locations.

Chemistry Learning Center (CLC)*

The [Chemistry Learning Center \(CLC\)](#) supports students in introductory chemistry courses (103 & 104) and in some sections of organic chemistry. They welcome as many students as possible but unfortunately do not have sufficient resources to support all students seeking help. The Center is partially funded to work with students in programs such as CeO, PEOPLE, Posse, and CAE. They also try to welcome Chancellor and PK Scholars, McBurney Center students, students on probation, new transfer students, students away from college more than 4 years, and students at-risk of failing the course. These are general guidelines and they consider each student on a case-by-case basis.

Greater University Tutoring Service (GUTS)

The Greater University Tutoring Service (GUTS) offers free peer tutoring through drop-in sessions or small groups in their Academic Match program. See <https://guts.wisc.edu/> for schedules and more information.

Peer Learning Association (PLA)

The [Peer Learning Association \(PLA\)](#) is a student organization that facilitates students working with other students within some sections of a course. Your instructor will notify you if the PLA is working with your class.

Undergraduate Learning Center (ULC)

The College of Engineering Undergraduate Learning Center (ULC) provides academic support for students interested in engineering. Their drop-in tutoring in Wendt Commons is free and open to any student enrolled in the courses the ULC offers. More information is at <http://ulc.engr.wisc.edu>.

University Housing Tutoring

University Housing offers free chemistry drop-in tutoring. See their [website](#) for hours and locations.
